~Global Solutions in Optical Precision~

Interconnect Maintenance Solutions

repair
™
mate

The REPAIR MATE™ by Seikoh Giken is your simple solution for repolishing damaged connector endface. The REPAIR MATE™ is your interconnect maintenance solution in the field or factory. REPAIR MATE™ polishes any connector type including FC, SC, ST, LC, and MU both PC and APC polishing.

Key Functions:

- ◆ Removes scratches and pits on fiber/ferrule endface
- ◆ Renews old fiber and improves back reflection
- ◆ Maintains GR-326 endface geometry
- ◆ One or two simple polishing steps
- ◆ Portable and Lightweight
- ◆ Easy one touch button operation

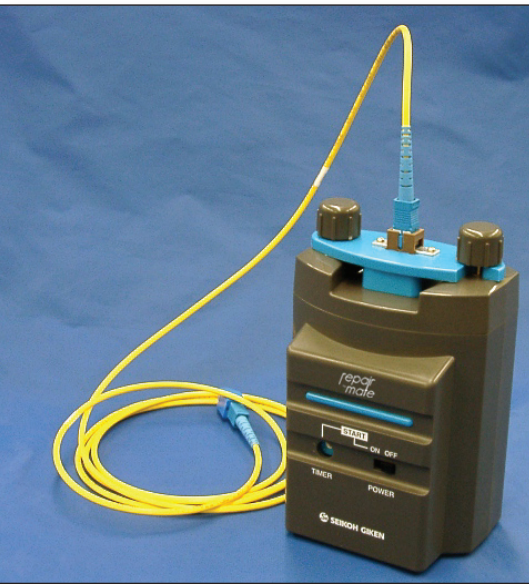

Standard Specifications:

Application	Repolishing
Axis	1-axis per holder
Dimension	94 x 75 x 140mm
Timer	Time setting: 15, 30, 45, 60secs
Power	AA battery x 4 AC/DC power adaptor (100v-240v)
Weight	600g
