Notification of Revision (Increase) to Year-End Dividend Forecasts

We hereby announce that at the Board of Directors meeting held today, we resolved to amend year-end dividend forecasts for the fiscal year ending March 31, 2025, as follows.

Details

1. Reasons for amendment to dividend forecasts

The Company considers returning profits to shareholders as one of the most important management issues and holds to a fundamental policy of returning investments to shareholders by maintaining and improving dividend payments while taking into account internal retention to provide for future investments.

Taking into account this fundamental policy and the earnings projects for the fiscal year ending March 31, 2025, we have decided that the year-end dividend projection for the fiscal year ending March 31, 2025 will be revised to 35 yen per share, an increase of 5 yen from the previous projection of 30 yen. Accordingly, taking into account the interim dividend of 30 yen, the annual dividend is planned to be 65 yen, an increase of 10 yen over the 55 yen dividend of the previous fiscal year (ended in March 31, 2024).
