**Re: Announcement for Expiration of
Repair & Maintenance Service for OFL-15 (old model)**

To whom it may concern,

This letter is to announce expiration of repair & maintenance service for OFL-15 polishing machine, which is our legacy model. As production of OFL-15 polishing machine was already discontinued on March 2005, repair & maintenance service of the model will be terminated on Mar 2015 (10 years after the production discontinuation).

As there is compatibility in polishing holders between OFL-15 and current model OFL-15A, we would like to recommend OFL-15 users to consider renewal of polishing equipment to current OFL-15A model in this opportunity.

1) Exact P/N of OFL-15 series polishing machine subject to the repair service expiration.

- OFL-151000 (for 100V)
- OFL-153000 (for 115V)
- OFL-156000 (for 220V)
- OFL-157000 (for 240V)
- OFL-158001 (for 230V)
- OFL-155001 (CE version)

*Please refer serial plate on the back side of polishing machine to check P/N

2) Final repair order:

31st of March 2015

3) Additional note

Needless to mention, repair & maintenance service for current model OFL-15A is continuously available even after the above mentioned final order date.

Exact P/N of OFL-15A series polishing machine

- OFL-151005G (for JAPAN)
- OFL-151006G (for other areas)
- OFL-155002G (CE version)
